About Funds Online

Funds Online is an extensive online database compiling over 8,000 sources of funding (amounting to over £8 billion) from grant-making charities, companies and statutory providers.

The database is run by the not-for-profit organisation, the Directory for Social Change.

Top tips

✓ Be flexible with your search criteria, play around with some options to ensure you don't miss out on any opportunities e.g. you might not always want to search for 'work outside of the UK', or if you are looking for project funding in Kenya you might want to widen the search and use the location criteria 'East Africa' or 'Sub-Saharan Africa' Remember to supplement the information you find on the Funds Online database with your own internet research. If the information provided is limited for a given opportunity (for example, if there is no website given) then you might look to the OSCR or Charity Commission database, to see if you can find any annual accounts with records of giving. You can also follow up with the contact details provided to request more information.
