**WHAT
HAPPENED
HERE?**

- If we do not work towards these things, we will never achieve the sustainable development that we are striving for. It takes all of us in joint effort, in partnership, with trust and respect, equality, equity and in

recognition of others and the valuing and acknowledgement of the resources that each brings. Compassion is not wrong, but let us have more empathy and the will to make each other stronger. Then, and only then will we all be strong.
- *“If you have come to help me you are wasting your time, if you have come because your liberation is bound to mine, then let us work together”*
